TERMS OF SALE

1. This is a public auction and mail bid sale, conducted by PONTERIO & ASSOCIATES, INC. Subject to our consent, liberty for bidding by sellers and/or consignors is hereby reserved.
2. A 10% buyers charge will be added to the hammer price of each lot. This charge will be added to all invoices.
3. Subject to paragraph 8, all material shall be sold to the highest bidder as determined by the auctioneer. If any dispute arises during or immediately after the sale of a lot, the auctioneer shall have the right to recall the lot and put it up for sale again. In all cases, auctioneer's decision shall be final. For the bidder's protection, NO "UNLIMITED" or "BUY" BIDS WILL BE ACCEPTED. Bids are to be made in U.S. currency only.
4. Terms of this sale are strictly cash with payment due immediately upon receipt of invoice. Payment by check must be payable in U.S. currency only and drawn on a U.S. Bank. NO credit card purchases will be accepted. Title to all lots remains with consignor until paid in full.
5. Minors are expressly forbidden to bid in this sale.
6. Floor bidders and mail bidders not known to us must furnish satisfactory credit references, sufficiently in advance of the sale to allow for checking, or a deposit equal to 25% of their total bids for that session(s) before such bids can be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.
7. All bids must be per lot as numbered in this catalogue. No lots will be broken. Lots will be sold in their numbered sequence unless auctioneer directs otherwise.
8. We reserve the right to withdraw any lot prior to the sale and to open the bidding on any lot at a reasonable price.
9. All items in this catalogue are guaranteed to be genuine unless specifically stated otherwise in the lot description. Claims to the contrary must be made in writing within three days after receipt of the lot. Any returned lot must be intact and in its original unopened holder. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. LATE REMITTANCE FOR PURCHASES CONSTITUTES JUST CAUSE TO ABROGATE ALL RETURN PRIVILEGES FOR ANY REASON.
10. Grading is a subjective description in the opinion of the cataloguer, as to the state of preservation of a particular coin or lot. The term "Proof" or "Specimen" is used to describe a method of manufacture, and not a grade or condition. Such terms are the opinion of the cataloguer and shall be deemed to be part of the description and not an attribution. No warranty, whether expressed or implied, is made with respect to such adjectival descriptions, which can and do vary among experts.
11. This is not an approval sale. Bidders are expected to promptly purchase all lots awarded to them by the auctioneer. Floor bidders are encouraged to carefully examine all lots in which they are interested in purchasing, since NO LOT MAY BE RETURNED BY FLOOR BUYERS, INCLUDING THOSE LOTS WHERE THE BIDDER IS ACTING AS AGENT FOR ANOTHER PARTY, OR BY MAIL BIDDERS WHO HAVE EXAMINED THE LOT PRIOR TO THE SALE.
12. Mail bids will be accepted from those who can not attend the sale in person. Bids for all lots must be submitted in even dollar amounts, or they will be reduced to the next even dollar amount. Successful mail bidders will be awarded the lot at a nominal advance over the second highest mail or floor bid. When identical bids are received by the auctioneer, for a lot, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid. A floor bidder must bid higher than the highest mail bidder to be awarded any lot. The auctioneer reserves the right to refuse any bids, which he, in his sole discretion, feels are not made in good faith.
13. The auctioneer can not be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing to pay.
14. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloguer, the current market value of the lot. Lots may, of course, sell for above or below this estimate.
15. All photographs in this catalogue are of the actual items being sold.
16. Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice for any lot(s) invoiced to successful bidders. All lots delivered in the state of California are subject to applicable sales tax. Individuals purchasing lots for resale must submit an exemption certificate, signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate number or be subject to the sales tax.
17. We reserve the right to require payment in full before delivering any lot to a successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer. All lots sent to foreign countries, including Canada and Mexico, will be billed an additional 1/2 of 1% for insurance. The minimum insurance fee is \$5.00. Please send shipping instructions. Normally all lots will be sent via registered mail.
18. In the event a bidder fails to make remittance promptly, auctioneer reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.
19. If the invoice for the auction is not paid for in full, when due, the unpaid balance will bear interest at the highest rate permitted by law until it is paid in full. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney fees, court costs and other costs incurred by Ponterio & Associates, Inc. The courts of San Diego County, California shall have exclusive jurisdiction and venue over any suit initiated by Ponterio & Associates, Inc. to collect past due invoices and the service of process by certified/registered mail, return receipt requested, shall be sufficient to confer "in personam" jurisdiction over bidder.
20. Auctioneer reserves the right to postpone the sale by auction of the property, for a reasonable period of time, as the result of any act of war, natural calamity or significant relevant event, which, in the judgment of auctioneer, reasonably exercised, make it inadvisable to hold the auction as scheduled.
21. Our ultimate liability for any item is the price paid.
22. By bidding in this sale, bidder personally guarantees payment; if a corporation is the bidder, the officers and/or principals of the corporation agree to personally guarantee payment.
23. All bid sheets submitted by mail bidders must be signed. Company bids must be submitted with the signature of a duly authorized agent of such company.
24. Bidding in this sale constitutes acceptance by the bidder of all the forementioned terms and conditions of sale.

10. Determinar el estado de conservación de los lotes es totalmente subjetivo, y en todo caso es la opinión del catalogador. El término "Acabado Prueba" o "Especimen" se usa para describir un método de fabricación, y no el grado de preservación o la condición. El comprador en sala deberá pujar más alto que el comprador por correo para adquirir el lote. El subastador se reserva el derecho de rechazar cualquier oferta, que a su discreción piensa que no se han hecho de buena fé.
13. El subastador no será responsable por errores en las ofertas. Favor de asegurar de que su oferta es por el lote correcto y que su oferta es lo máximo que Ud. está dispuesto a pagar.
14. Se ha proporcionado una estimación para cada lote. Esta estimación representa en nuestra opinión, el valor actual del lote, los lotes por supuesto, se podrán vender en más o en menos que esta estimación.

17. Nos reservamos el derecho de exigir el pago total al comprador antes de entregarle cualquier lote. Es la responsabilidad y obligación del comprador de tener asegurados los lotes que estén en su posesión, ya que será responsable de la pérdida. En los lotes enviados a países extranjeros, incluyendo Canadá y México, se le cobrará al comprador un gasto adicional de la mitad del 1% por gastos de seguro, lo mínimo será \$5.00 U.S. Favor de mandarnos instrucciones de envío. Normalmente todos los lotes se enviarán por correo registrado.
18. Si el comprador no hace el pago a tiempo, el subastador se reserva el derecho de vender la pieza de nuevo, y el comprador acepta pagar el gasto razonable de esa venta y también pagará cualquier diferencia entre el precio de reventa y la oferta previa.

Los tribunales del condado de San Diego, California tendrán jurisdicción exclusiva sobre cualquiera de las acciones iniciadas por Ponterio & Associates, Inc. para cobrar facturas no pagadas al vencimiento. La citación de un juez por correo certificado/registrado y la respuesta de la solicitud escrita, serán suficientes para conferir jurisdicción "en persona" sobre el postor.
20. El subastador se reserva el derecho de posponer la venta de la propiedad en subasta, por un período razonable, por el resultado de un acto de guerra, una desgracia natural o un significativo evento importante, por lo cual, en la opinión del subastador, ejercido razonablemente, se hace inconveniente realizar la subasta como estaba prevista.

INSTRUCTIONS TO NEW MAIL BIDDERS

Bidding by mail permits you to participate in an auction as though you were attending it in person. The procedure is really quite simple. You tell us what you want, and the maximum amount you are willing to pay. We then, as your personal agent, try to buy the items listed for you at the lowest possible price.

The enclosed mail bid form has two sides for you to fill in. The front side provides all the information we will need to register you as a bidder, execute your bids for you and deliver your lots to you if you are a successful bidder. Please answer all the questions that may apply to you. **DON'T FORGET TO SIGN YOUR BID SHEET.**

On the back side are pairs of columns where you may list your bids. After carefully reading the lot description, write down the lot number and the maximum amount you are willing to pay for that lot. Don't forget that a 10% buyer's fee will be added to your actual purchase price if you are the lucky bidder. Continue to list lot numbers and bids for each of the lots you are interested in buying.

LOT	BID
8	300
20	400
223	500
335	700
515	900

When we receive your bid sheet, we will record your bids at the amount you have authorized us to bid for you, and we will, in addition, note any lots where an increase is authorized if absolutely needed to win the lot. For example, if the sample bid sheet shown at the right were yours, we would enter your bid on lot #8 as \$300. If yours was the highest bid received, you would be the purchaser at \$300. (plus 10%) or perhaps even less. If the second highest bid received on the lot was substantially less, your bid would be reduced to a "normal" increment above that second-highest bid, just as it would be if you were present at the sale yourself to execute your own bids. If you have authorized a percentage increase on the front side of your bid sheet and the bidding by others has exceeded your basic bid, we will then, as your personal agent, increase your bid to the minimum amount necessary to obtain the lot for you. The authorized increase will never be used except when your basic bid is exceeded.

Before you mail your bid sheet, do be sure to check it over to make certain you have bid on the correct lot(s) and that your bids are the ones you are both willing and able to pay for. Enjoy the catalogue, place bids on everything you would like to buy. If time is running out and you feel your bid sheet may arrive too late to be included, you may call our office between the hours of 8:30 a.m. and 5:00 p.m. Monday through Friday, giving us the lot numbers and amount you will pay for each lot, over the telephone. Please make sure you immediately send in your bid sheet for confirmation. Also, you may FAX your bid sheet to us. As your personal agents we wish you every success.

VIEWING OF LOTS

*Lots will be available for viewing by prospective bidders at our office each day, Monday through Friday, by **APPOINTMENT ONLY**, between the hours of 9:00 a.m. and 5:00 p.m. May 11 through June 3, 1998 only. Additionally, all material will be available for viewing at the Long Beach Convention Center.*

WELCOME TO THE "INFORMATION AGE"

If you are an active or formerly-active collector, it is likely that you have some reference books about your area(s) of interest. The vast probability is that the references you have were published or reprinted within the past twenty years. This indicates that a great deal of research has been undertaken, completed and published during this time and that many old faithful, standard references - mostly unattainable or expensive when available - have been reissued because of demand.

For convenience and brevity, I am going to limit this discourse to reference materials for modern issues. With that in mind, why have so many reference books pertaining to numismatics been produced recently? I must be careful of "recently"; being nearly 60, 1980 doesn't seem to be the too-distant past, whereas that can almost be ancient history to some of our younger collectors! Most of the general reference materials are being produced to support the interest of people in a wider area of collecting, using the information provided by a wide range of researchers, while more focused materials are published by individuals based on their localized interests. I want to explore these two major areas separately and will start with the "general" materials.

The "Standard Catalog of World Coins", published regularly since 1972, contains a wealth of information on the coinage of the entire world from 1601 to present, one volume for each century. This work is mainly produced based on the massive support of collectors, dealers and others who provide the publisher with information on coin issues, types, dates of issue, and valuations. Until the 1960's, there really were no world-wide reference books for modern coins; there were various "common interest" references based on major collections which covered fairly wide areas, such as Quadras y Ramon's work on Spain and Spanish colonial issues, Friedberg's work on world gold coins (worldwide, but only for gold), etc. With the "60's" came a major explosion in "world" references with Sten and Musser's "World Coin and Currency Handbook", Yeoman's "Catalogue of Modern World Coins", Craig's "Coins of the World, 1750-1850", Remick et al and Harris' works on British Commonwealth issues, and many, many others. The 1970's brought numerous new researchers and their publications, including Bachtell and Davenport (Crowns), Castan & Cayon (Spanish world), Delmonte and De Mey (Low Countries), Hobson, Sieg and Somod on Scandanavia, etc. (please forgive me if I have omitted a favorite major author or reference; I'm just trying to give examples of the materials being produced).

The "Standard Catalog of World Paper Money", first published in 1975 as an expansion of Pick's 1970 work on European paper money, is THE worldwide reference for notes. Earlier works which "covered the field" were quite limited but included George Sten's "Encyclopedia of World Paper Money" and the never completed "Banknotes of the World". As with coins, there were many wonderful works on issues of single countries (Ward Smith with China, Kardikoff on Russia, Keller on Germany, etc.), and most of these are still valuable references.

To give you some idea of the growth and evolution of a single reference work, the first edition of the "Standard Catalog of World Coins" consisted of 792 pages; the present 4 volumes total 5,232. Similarly, the 1972 edition of the "Standard Catalog of World Paper Money" had 720 pages, the current 3 volumes have 2,094. Please be aware that new editions of some volumes of these series will be coming out shortly and there will be even more information and pages!

To illustrate reasons for the expansion of the "Standard Catalogs" during the past few years, the pre-1990 paper money references noted a relatively small number of Specimen notes; in the years following the 1990 and 1991 auctions of the American Banknote Company archival materials, this additional listing has grown tremendously. In similar fashion, specifically in reference to Iceland (which happens to be of great interest to me), Unissued Remainder and Punch Canceled notes are now listed as separate varieties for many listings. In this same light, signature combinations have been identified for each note issued from 1935 onwards, and a future edition will reflect different printings of notes issued from 1935 to 1957. Why have all of this information? As with many other countries, there are specialized collectors who need such data for their collecting goal-setting and achievement.

The area of reference works with the greatest growth has been in "special interest" or specialized works. Until the 1960's, most numismatic research and publication dealt with issues of a particular country's issues, and this area has grown tremendously since that time. Many of the works covered in this general category are "labors of love" created by individual collectors or dealers, with the hope of providing additional or new information about their fields of interest and expertise to the rest of us. Those who undertake these projects rarely have any concept of the amount of time and energy that will be involved in their completion, but usually they don't care; they want to share their work, not only in producing the first effort but in pursuing new material for revised editions. Some time during 1973 Ward Smith was visiting in San Diego and came into my "retail" shop to see if I had any Chinese material which might be of interest. I had nothing for him but we had a wonderful conversation and I commended him for his book on Chinese notes. He had a "working" copy with him and he showed me the hundreds and hundreds of written notations of notes which had not been known to him when the book was published; these would go into "the next edition". This was not to be as he passed away before much was done on a second edition, and I never heard what became of his "workbook". Over the years I have known numerous numismatic authors; some have produced a pamphlet or two, others tomes; some have had financial "success" (if you consider working at the rate of 10 Cents an hour overall a success!), others have not. The majority of these numismatists said their best rewards came by means of comments of thanks or appreciation from collectors.

I can personally relate to the "labor of love" aspect of producing numismatic materials but both of my ventures came about because of my own need for handy references. Shortly after I moved to San Diego in 1968 I became interested in collecting Roman coins (rather than just accumulating a few now and then) but could not locate many references which assisted in identification of moneyers or rulers other than H. Seabys' "Roman Silver Coins and Their Values" and Zander Klawans' "Reading and Dating of Roman Imperial Coins"; it's not that they didn't exist but I wasn't aware of them. At any rate, I started compiling listings of inscriptions and attributions for both Republican and Imperial issues and after collating numerous pages of material, I showed it to a fellow collector who suggested that I might publish the work. With encouragement and advice from him and from several dealers, my project expanded somewhat and was eventually published in 1971 as "A Guidebook for the Identification of Roman Coin Inscriptions" with 32 pages of material. Shortly after these came back from the printer I showed a copy to a dealer friend who commended the work but suggested adding Greek inscriptions for Roman colonial/provincial issues in a later edition. So, before a dozen copies of the first effort had been sold I started on the second edition which contained some Greek inscripational material; this came out with 64 pages in 1973. Following this, I became aware of more and more references with Latin and Greek inscripational material which could be helpful and I began compiling new lists; the third edition, 111 pages, came out in 1977. All 3 editions of this work were self-published with small printings and by 1981 I was considering either reprinting the book or producing an expanded fourth

edition. I wasn't too excited about all the typing and layout work involved, especially in that I used an IBM Selectric and had to change the type balls when switching to and from Greek letters! I was saved from all this when Sanford Durst of New York became aware of my interest in reissuing or redoing the work and he offered to undertake a reprinting of it if I added an Index and updated the bibliography. This was done and the new work, now over 140 pages in length, came into being as the "Dictionary of Roman Coin Inscriptions" ("Dictionary sounds better than Guidebook" saith he) in 1982; this work still available. Have I made money from all this? Some, but the tremendous amount of time spent on these projects brings the hourly rate of practically nothing. But, I have been rewarded time and again by people who tell me that they have (or have had) a copy of this work and found it useful. That's thanks enough.

My second publishing effort came from my personal need for an easy way to use a wonderful reference book on Russian Coins, V.I. Petrov's "Catalogue des Monnaies Russes" which contains many coins not listed, identified, or listed elsewhere. The book consists of 86 pages of textual listings and 32 plates of line drawings, but the numbering is a mess; the listings on page 1 start 43, 44, 645, 347, 350, 643, 1, 2, 3, etc., and this "system" of numbering goes through the entire work. The numbering of plate illustrations is also a challenge; plate 1 starts with 408, 417, 385, 386, 122, 411, etc.; this is not something I find easy to work with at all! Again, because I personally needed a guide to adequately use a particular reference, I spent a tremendous amount of time compiling listings of where items in one part of the catalog were located in the other, eventually self-published as "A Cross-Referencing Index to V.I. Petrov's Catalogue des Monnaies Russes" in 1980. I sold a few of these when they first came out and later sold them with copies of Petrov when I had my mailorder business; if you have the book and would like a copy of the Index, let me know and I'll send you a copy. Free, but if you want to send something for postage, fine. What a way to do business!

Occasionally someone comments that I must really know a lot about Roman coins (or other things) because I have written or given presentations about them; I am delighted to tell them that I'm still learning about these subjects and what I have done was part of my learning process and I still have a long way to go!

Can you help other collectors in this "Information Age" with things you have learned from your collecting experiences? Most certainly. If you are a coin club member, let other members know of your interests, any research you have undertaken or unusual things you have learned about your area of interest; if not a coin club member, consider joining one if feasible. Listen to what others have to say about their collecting interests and exchange ideas; pursue new ideas and explore new sources of information about your main interests. If in your collecting or research you find material you think might be of interest to others, especially authors of reference books in your area of interest, please let them know. If you have had interesting experiences or discoveries in the course of your collecting, consider writing something for one of the various numismatic publications such as "Coin World", "Numismatic News", "World Coin News" or "Banknote Reporter" if related to paper money, etc.; please keep in mind that various collector organizations which have periodical publications are constantly seeking material from collectors. As mentioned above, the "Standard Catalogs" have undertaken tremendous growth in the past but there are many areas in which they need more information; if you have something to contribute in an area which is "under-represented", I am sure that the publishers will be pleased to hear from you; if they're not too excited, consider publishing it yourself!
